## Summary

Is a technically savvy web developer, I have many years experience in web developer, both at back-end and front-end. Had the opportunity to work in a freedom environment but also fast paced and professional, that make me easy to dynamic and creative freedom. Alongside that, I also have experience to work with big data, high traffic and multi-user applications. At presentation, I want to become a professional web programmer, apply experience accumulated into the job and try to learn new knowledge, technology and another skills. Constantly improving ability, level to improve myself and contribute to the development of company. I committed to having an impact on the future of any company that me works for, and possesses the enthusiasm to learn and develop. I'm looking for a suitable opportunity that will not only take my career to the next level, but will also allow me to work with a very special team.
