OBJECTIVE

Dedicated and experienced ReactJS Developer with 4 years of hands-on experience in building robust and efficient web applications. Seeking to leverage expertise in ReactJS and frontend development to contribute to innovative projects and collaborate with dynamic teams. Committed to delivering high-quality solutions that meet both user needs and business objectives

CAREER HISTORY

COMPANY: TMA SOLUTION / 2019/08 - 2021/01

Position: Frontend developer

- At TMA, I participated in a software development project for a major client in the logistics industry. In the role of an intern, my tasks included participating in requirements analysis, designing and implementing new features of the application, as well as assisting in handling and resolving technical issues.

COMPANY: FPT SOFTWARE / 2021/01 - PRESENT

Position: Frontend developer

- As part of the FPT Group, I have been involved in a diverse and dynamic work environment. During my time at FPT, I have had the opportunity to collaborate with talented colleagues and experience engaging software projects. I have learned a great deal from this professional environment, enhancing both my teamwork and technical skills.

PROJECTS

ROC2K1 / 2019/08 - 2021/01

Position: Frontend developer

- Led the perfect pixel conversion project aimed at transitioning UI elements from Internet Explorer to Chrome and Edge browsers

UTOP / 2021/01 - 2024/08

Position: Frontend developer

- The Utop project is a major project undertaken by FPT Software aimed at creating a multi-feature online food ordering application. The project includes essential

EDUCATION

University of Science - VNUHCM

2013 - 2019

Physics

This field focuses on utilizing electronics and programming to create efficient and user-friendly smart home solutions.

HOBBIES

- Exploring new technologies and side projects.
- Engaging with the developer community online.
- Company culture and team activities.
- Staying active with sports and outdoor hobbies."

features such as a rewards system, delivery ordering, adding items to the cart functionality, and many more features to optimize the user shopping experience.

- Role:
 - + Build commons components.
 - + Collaborated closely with the Backend team to integrate the interface with services and databases.
 - + Create screen of page website based on design.

LONGCHAU DESIGN GUILDLINE. / 2021/09 - 2022/02

Position: Frontend developer

- The Long Chau Design Guideline project aims to develop custom components and package them into npm packages to serve as a foundation for the development of other projects within Long Chau.
- Role:
 - + Developed custom components following the design guidelines provided.
 - + Packaged the components into npm packages for easy distribution and reuse.
 - + Collaborated with the design team to ensure consistency between the components and the design guidelines.

LONGCHAU PHARMACY RETAIL SYSTEM / 2022/02 - 2023/12

Position: Frontend developer

- The Long Chau Pharmacy Retail System is a large-scale project aimed at implementing successful digital transformation with advanced solutions such as self-service checkout applications, logistics management systems for delivery and shipment, real-time inventory management systems, etc. It has been recognized as an exemplary digital transformation award-winning enterprise in 2022.
- Role:
 - + Played a key role in the successful development and implementation of self-service checkout applications, enhancing customer experience and operational efficiency.
 - + Contributed to the optimization of logistics management systems, improving delivery and shipment processes.
 - + Assisted in the implementation of real-time inventory management systems, ensuring accurate and efficient inventory tracking.

NTA / 2023/01

Position: Frontend developer

- The NTA project is a large-scale endeavor focused on booking tours for Japan, featuring an extensive system and a sizable team. It aims to provide comprehensive tour booking services, catering to various preferences and needs of travelers visiting Japan.
- Role: Developed and maintained responsive user interfaces using ReactJS, ensuring cross-browser compatibility and optimal performance.
