

HUYNH NGOC HOANG MINH

Full Stack Developer

Gender: Male.

Phone: +[REDACTED].

Date of birth: 17/02/1993.

Email: [REDACTED]

Address: 16/28 Thanh Loc 19,
Thanh Loc Ward, District 12, Ho Chi Minh City.

Marital Status: Married.

Git Hub: [REDACTED]

SUMMARY

Experienced as: 7+ years in programming.

- Mobile Android App: 3 years.
- Full-Stack Developer (.NET, .NET Core): 2 years.
- Full-Stack Developer (ReactJS, NodeJS): 2 years.

Specialties:

- Can adapt quickly to new project.
- Design and implement UI layout, apply knowledge about UI/UX.
- Develop RESTful API.
- Deploy product (IIS, ubuntu server).
- Teamwork and communicate.
- Clean code and debug.

Industry Experience:

- Experience in domains: IOT, HRM, Education, Medical, Government Organizations.

TECHNICAL STACKS

- **Programming Languages:** Javascript, Java, C#.
- **Web application (traditional):** Web API, Restful API.
- **SPA:** JS, ReactJS.
- **Package management:** npm, Yarn, NuGet, Maven, Gradle.

- **Database:** SQL Server, MySQL, MongoDB.
- **Query Language:** SQL, GraphQL, LINQ.
- **ORM:** Entity Framework.
- **Reporting:** Jira, Azure DevOps.
- **Testing:** Postman, Browser DevTools, Redux DevTools, VS code plugins (REST Client).
- **IDE:** Android Studio, Visual Studio, Visual Studio Code, NetBeans.
- **Coding principle:** follow best practices, design pattern, clean code, apply coding principles: SOLID.
- **Architectural patterns:** MVC, MVVM.
- **Methodology:** Agile, Scrum.
- **SCM:** Git.
- **Other:** Ubuntu Server, Ubuntu Desktop, PowerShell ISE, Task Scheduler.

EDUCATIONAL BACKGROUND

1. **Graduated University 2011 – 2016 (4.5 years training system)**
Faculty of Information Technology - Sai Gon University
Diploma: Good Type
2. **English Certificate B**
Diploma: Good Type
3. **Completed the course “Xamarin Cross-Platform Programming” – 2017**
Issued by: DVLUP – Xamarin Authorized Consulting Partner
4. **Completed the course “████████ Core 3.1” – 2020**
Issued by: NhatNghe Education SJC

EXPERIENCE & PROJECTS PARTICIPATED

Saigon Hi-Tech Park Training Center

Full-time 2016 – 2019

Website: ██████████

1. **Android Developer:** (*Android Studio, MQTT, Java, Wi-Fi, Bluetooth*)
 - SHTPPROJOB – An application provide jobs inside and outside the SHTP.
 - Applications controlled via Bluetooth using HC-05 circuit, via Wi-Fi using ESP-8266 circuit to support IOT training, execute integrated programs inside the Robot arms.
2. **Full Stack Developer .NET:** (*C#, QR Code, Serial/COM port*)
 - Application to access and open CorelDraw design files quickly via QR Code using camera/webcam.

- Applications for communication and control of the Robot arm via Serial/COM port to support training.
3. *Web Service - Full Stack: (Javascript, HTML, CSS, MQTT, Wi-Fi)*
- Communicate with ESP-8266 circuit via Wi-Fi (using MQTT) to support IOT training.

UBERYTE Corporation

Full-time 2019 – 2020

1. **Cross-platform Mobile Developer:** (C#, Xamarin Android, Xamarin IOS, publish app to Google Play and App Store, Google Maps API)
 - PHR – An application storage electronic medical records, medical appointments, call SOS.
2. **Full Stack Developer** [REDACTED] (C#, Entity Framework, [REDACTED] MVC, MVVM, upload & download file from FTP Server, deploy application to IIS).

Ocean Net Software Limited Company

Full-time 2020 - Now

1. **Full Stack Developer - Plaza Home Mortgage Project (1+ years):** (C#, LINQ, Entity Framework, [REDACTED] SQL Server, Powershell scripts)
 - A project about renting/buying houses, using [REDACTED] MVC, VueJS, SQL Server and synchronizing data with PowerShell scripts.
 - *VueJS:* Funding Utility - a tool that helps process funding requests for loans from customers.
 - [REDACTED] MVC – *Full Stack:* Application for managing rental/purchase loans using [REDACTED] MVC.
 - *PowerShell:* Implement & schedule automatic execution of data synchronization tasks and related processes.
2. **Full Stack Developer - Raptor Vision Camera Project (1+ years):** (ReactJS, NodeJS, GraphQL, MongoDB, RabbitMQ, WebSocket, send SMS & MMS by Twilio, send email by SendGrid API)
 - A project about anti-theft camera, using ReactJS, NodeJS, MongoDB. In this project includes small modules connected.
 - Proxy:
 - Using http-proxy-middleware to build a proxy server that forwards through internal ports.
 - Forward request to log user access information (access time, IP...).
 - Admin Portal – Full Stack (work with Tech Lead):
 - Front-end: Implement UI according to mockup/design or create UI by myself if there is no mockup, interact with API, Web Socker.

- Back-end: Write API, implement mail & SMS sending function using Twilio SendGrid.
- VMS -Full Stack (work with another member):
 - Front-end: Implement UI according to mockup/design or create UI by myself if there is no mockup, interact with API, Web Socker.
 - Back-end: Write API, process data via Web Socket.
- AiT – Front-end:
 - Implement UI according to mockup/design or create UI by myself if there is no mockup, interact with API, Web Socker.
 - Get stream from a video file.
 - Get stream from camera.
- Webhook – Back-end:
 - Write API.
 - Process data via Web Socket, RabbitMQ.
- Play Media HDMI – Back-end:
 - Upload and play default video/image when there is no alarm.
 - Live stream from camera when there is an alarm using ffmpeg/ffplay.
- Stick – Front-end: Implement UI according to mockup/design or create UI by myself if there is no mockup.
- ASC – Full Stack:
 - Implement feature activate license:
 - ❖ Front-end: Implement UI according to mockup/design, interact with API.
 - ❖ Back-end: Process tasks RabbitMQ.

OTHER EXPERIENCE & PROJECTS PARTICIPATED

Bach Khoa Computer Solutions Co., Ltd (BAKCO)

Part-time 2017 – 2019

Website: [REDACTED]

1. ***Android Developer:*** (*Android Studio, Google Maps API*)
 - VKHealth - An application that allows users to: make a call SOS, Learn health knowledge through video, video call with doctors, medical appointments, family doctors.

Google Play: [REDACTED]

Titkul Co., Ltd

Part-time 2020 – 2021

Website: [REDACTED]

1. ***Full Stack Developer:*** (*ReactJS & NodeJS*)
 - TK Smart Vision Edu.
 - Digital Card.
2. ***Back-end Developer:*** (*C#, .NET Core*)
 - Human Resources Management (TK HRS)
