

LE HOANG HIEU

SENIOR POWER APP DEVELOPER

PROFILE

 1/2/1986

 [REDACTED]

 [REDACTED]

 01 Hàn thuyên, [REDACTED] Nhon

OBJECTIVE

- Develop project and people management skills, aiming to become a Team Manager or Project Manager
- Become an expert in Power Platform, capable of consulting, designing, and implementing complex solutions for clients or businesses

SKILLS

Power Apps Studio

- Advanced Application Development
- Analyze, design databases and business process flows
- UI/UX Design
- Security and Access Management

Power BI

- Analyze and design reports according to requirements
- Proficient in ETL skills
- Design and optimize data modeling, ensuring data integrity
- Data visualization
- Report deployment and management

Power Automate

- Proficient in using features
- Analyze, design, and optimize flow
- Handle and debug errors
- System integration: connect API, use webhook

EDUCATION

APTECH COMPUTER EDUCATION

HIGHER DIPLOMA IN SOFTWARE ENGINEERING

2009 - 2012

Basic Programming: Languages: C, C++. Building simple algorithms.

Database: SQL, MySQL - Database design, creating and managing tables, relationships between tables. Querying data using SQL.

Basic Web Development: Basic HTML, CSS, JavaScript.

Advanced Programming: - Java, C#, Object-Oriented Programming (OOP).

Advanced Web Development: Frameworks: [REDACTED] MVC model.

Mobile Application Development: Java (UI/UX).

Soft skills: communication, teamwork, time management.

Research skills, learning new technologies.

WORK EXPERIENCE

WECARE GROUP JOINT STOCK COMPANY

SENIOR POWER APP DEVELOPER - TECHNICAL LEADER

12/2021 - NOW

SENIOR POWER APP DEVELOPER

- Design system architecture and make technical decisions
- Assess different technology options based on project requirements, performance, scalability, and other factors to choose the best fit
- Identify and resolve difficult technical problems that may arise during development or deployment
- Monitor and improve system performance
- Oversee the process of deploying software to production environments and manage its
- Oversee the process of deploying software to production environments and manage its ongoing operation and maintenance
- Develop project plans, allocate resources, and assign tasks to ensure efficient project

TECHNICAL LEADER

Power Page

- User Interface (UI) Design: Use Power Pages Design Studio to optimize user experience.
- Data Connection and Security: Connect and secure data

Data Analyst

- Data Analysis and Visualization
- Data Cleaning and Preparation
- Proficient in Power Query: BI, Excel, Dataflow

Data Engineer

- Design and manage data storage systems
- Design and build ETL processes and data pipelines
- Develop and maintain data infrastructure
- Optimize system performance

SQL server

Query and process data, design and manage databases

API

- Basic understanding of APIs
- Integrate APIs into Power Apps
- Interact externally with Dataverse API

Azure Service

Basic knowledge and experience using Azure services

Independent working skills

Manage time and tasks, ensuring work progress

Teamwork skills

Problem-solving

- Mentor and assist colleagues on technical challenges, best practices, and problem-solving
 - Recruit and train new employees
 - Evaluate the performance of team members
- Develop project plans, allocate resources, and assign tasks to ensure efficient project execution and timely delivery

SAVEMONEY

PROGRAMMER, BUSINESS ANALYST

03/2021 - 10/2021

Programmer:

- Build APIs using NodeJS with the Express framework.
- Deploy APIs using Docker.

Business Analyst:

- Analyze customer requirements.
- Create flowcharts, use cases, and ERDs.

AMAZON

FREELANCER

08/2015 - 10/2019

- Run software advertising campaigns: Aliexpress, Uber, Twitter.
- Boost the ranking of applications on the App Store: KingOfWar, ClashOfClan, etc

FUJINET SYSTEMS

SOFTWARE DEVELOPER

05/2012 - 05/2015

Application Development:

- Program according to requirements and application design
- Build user interfaces (UI)
- Connect the application to a database
- Perform testing and debugging

CERTIFICATIONS

2012

HIGHER DIPLOMA IN SOFTWARE ENGINEERING

INTERESTS

- Listening to music, watching movies
- Learning new technologies and researching information
