

KIỀU GIA HUY

Junior Flutter

SKILLS

Postman

Nodejs, ExpressJS

OBJECTIVE

Graduated with a major in software engineering from Lac Hong University. Over 3 years of experience in learning and researching Flutter. Good knowledge of Dart, Nodejs programming languages. In addition, I also have skills such as OOP, BloC, Git, Github, Sourcetree, UI/UX, the ability to learn quickly, solve complex problems, work well in a team,... I would like to develop my career with this position. Mobile programmers in order to maximize their own capabilities and improve their work knowledge. I want to become a mobile project manager.

EDUCATION

2017 - 2021

LAC HONG UNIVERSITY | Bachelor of Information Technology

Mobile Application Developer

EXPERIENCE

03/2023 - PRESENT

ABA COOLTRANS | Mobile Application Developer

I develop internal applications for the company. Includes 3 applications, in there:

- ABA Customer: provides features for customers such as inventory tracking, trip itineraries....
- ABA Smarter: provides features for internal employees in the company such as timekeeping, leave, viewing revenue, inventory, proposals,...
- ABA Delivery: provides features for delivery staff such as trip itinerary, map, delivery confirmation,...

In addition, I also maintain and customize the WCS application for warehouse operations (eg: sorting product, QR Code/barcode scanning, label printing,...) by Java
