SUMMARY

I have already had 5+years working experience in web application as a .NET Developer in Ominext Group Joint Stock Company, MUFG Bank and FPT Sofware HCM City. I have strong knowledge of technologies and techniques. High sense of responsibility, good working attitude and skills are main factors that help me promote my career. Knowledge has no boder, so I will never stop learning and improving myself. I am willing to seek new challenges and responsibilities. At last, to me, contributing to the company's development is the way to prove my abilities.
