Major Professional Training Courses:

        language : Level B.

        usage with MS Office, Internet…

III. Profile and Objective

My objective is to work for a dynamic company to build upon my current skills and gain new ones. I have 20 years relevant experience as a web developer for a web agency based in some companies and have also worked privately as a freelance web designer.

I have managed many different projects and in each of them I have used and developed several skills in different areas including web design and development, web usability, accessibility, web marketing, graphic design, programming, management and testing.

As my passion is visual design and communication I follow key trends on web design and graphic design.
