	Degree classification : Excellent (GPA: 3.1/4)

CERTIFICATIONS

11/2023	Business Analysis (BA) of license IIBA of BAC-HCM

11/2021	Docker for absolute beginners
09/2021	Sequence Models
09/2021	Convolutional Neural Networks
05/2021	Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization
05/2021	Neural Networks and Deep Learning
05/2021	Structuring Machine Learning Projects
03/2021	Programming for Everybody (Getting Started with Python)
03/2021	Programming for Everybody (Getting Started with Python)
04/2021	Python Data Structures
04/2021	Using Python to Access Web Data
04/2021	Capstone: Retrieving, Processing, and Visualizing Data with Python
04/2021	Using Databases with Python
04/2021	Introduction to HTML5
12/2012	Mirosoft Certificate MCITP-SA
10/2012	Corporate Network Management - Cantho University Software Center (CUSC)Rank well
12/2011	Computer Hardware - Information Technology Vocational College (Ispace)Rank well

SKILLS

Programming languages:	Programming languages: C, C++, C#, Python, PHP, Javascript, T-SQL and PL/SQL.
DBMS	Microsoft Access, Microsoft Excel, Microsoft SQL Server, MySQL, Oracle DB, MongoDB, Postgresql.
Application development tools:	MS Visual Studio 2008/2010/2012/2013/2015/2017/2019/2022, MS Visual Code, Pycharm, PhpStorm, Webstorm.
Application design tools:	Power Designer, Visio, StarUML, Xmind.
Web Programming:	HTML5, CSS3, Javascript, ReactJs, NodeJs, ASP, ▮▮▮▮ MVC, Angular 1, KnockoutJs, Jquery, Bootstrap, Devexpress extreme.
Desktop Programming:	Windows Form Application C# .NET, DevExpress Window form.
Programing technologies	LinQ, LinQ Lambda Expression
Web and application server:	IIS, Apache.
Framework:	.NET Framework, Entity Framework, Laravel Framework and DevExpress Framework.
Graphic design tools:	Adobe Photoshop, Adobe illustrator, Adobe Indesign, Coreldraw.
Platforms:	Microsoft Windows OS, Linux OS and Mac OS.
Language	English (can be comunication)

WORK EXPERIENCE

02/2022 – Now   **CMC GLOBAL**

Software Development Engineering (Lv4)

- Outsourcing for the Japanese market

- Build solution and project structure

- Support in planning estimate time

- Review codes for team members

2018 - 2021   **FPT TELECOM**

System Engineering

-Develop internal service system

-Maintain the company's existing system

-Ensure the system works stably and smoothly

-Monitor and correct errors in a timely manner

2016 - 2018   **EXIMBANK**

Software Engineer

-Core banking programming

-Check and reconcile accounting data

-Summary of data at the end of the day, month, quarter and year

2014 - 2016   **DHG PHARMA**

IT Engineer

-Operating system

-Reception and support for other department -Development system for Hospitals

PROJECTS

Education Solution

(Jan 2023 - Now)

Customer	Schools in Vietnam
Description	Comprehensive educational management for Universities, Colleges, Intermediate Schools, Departments of Education, Preschools, Primary Schools, Middle Schools, High Schools and connection services for the Education and Training industry.
Team size	Many members
My position	Software Engineer
