MỤC TIÊU NGHỀ NGHIỆP

- Java Dev with 3+ years of experience in developing web applications.
- I'm looking for a setting that will foster professional development and accumulated experience, as well as a job that will be stable enough for me to work there for a very long time.
- After three years, I'm hoping that through my own hard work, I'll be a competent team leader who can handle more challenging tasks.
